## Seed Growing Contract

To:

The William Macdonald Seed Co.  
Santa Maria, California

Gentlemen:

Kindly enter our order for delivery from 1952 crop on the quantities and varieties of Flower Seeds indicated in this catalog. Also mail us a detailed acknowledgment of this order for our files.

Shipment is to be made as per instructions marked on this page from 1952 harvest seed. If any varieties cannot be booked now, please advise promptly. Be sure to send us another list to replace this one.

It is understood that this order is placed subject to the standard Terms and Conditions of Delivery as outlined on page 3 of this catalog. Please adhere carefully to the following special instructions:

## For the Seed Trade . . .

We are pleased to offer you our 1952 Contract List on Flower Seed for delivery from new crop harvest. For your convenience, it can also be used as an order form. We will mail you another copy for the one used, together with an itemized acknowledgement.

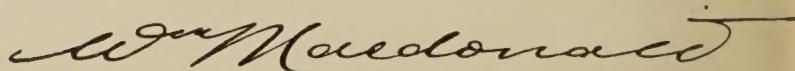

In spite of unusually wet winter months which delayed early plantings, our normal acreage to date has now been completely planted. There are fewer surplus Flower Seeds available now, than in the past seven or eight years. We strongly suggest that customers place their orders as early as possible for 1952 crop requirements. This will give you a priority on available supplies should any shortages occur later in the season.

We believe you will find our prices reasonable and consistent with the top quality California grown Flower Seeds offered. All phases of production costs are steadily rising, yet many of the varieties listed in this booklet are no higher than they were ten-years ago. We cannot guarantee these prices any longer than the end of June, as increased costs may cause price increases on many border-line varieties—especially those requiring considerable hand labor. California produced Flower Seeds invariably germinate higher, and our modern cleaning and harvesting methods give you better seed samples. Speedy delivery is also an important factor—within 12 hours if necessary any place in the U.S. or Canada!

This booklet lists all of the Flower Seed varieties we are growing for delivery after 1952 harvest. We expect to issue supplements from time to time, and also a Novelty list in July on several outstanding introductions.

Our fields are usually in full bloom between the middle of May and the end of September. If you are planning a trip to California, we hope it will be in the summer months and that you will be able to stop off in Santa Maria. We are located about half way between Los Angeles and San Francisco on the coast highway No. 101. Southwest Airways provides excellent service here.

We want to take this opportunity to thank our many friends and customers for the nice business placed with us last season. I can assure you it is our intention to serve you even better in 1952.

A handwritten signature in cursive script, reading "W. MacDonald". The signature is written in dark ink and is positioned at the bottom of the page, below the main body of text.

# Terms and Conditions of Delivery

All seeds are offered F.O.B. Santa Maria, California, for delivery from 1952 crop as soon as possible after harvest. Invoices to firms of established credit are subject to a discount of 1% for cash in 30 days from invoice date, or 60 days net. New customers should furnish two credit references if shipment is desired on an open account basis. Otherwise delivery will be made C.O.D. All foreign invoices are payable in U. S. Dollars at the current rate of exchange. All overdue accounts are subject to a sight draft without further notice.

Speedy Air Parcel Post and Air Express service can have your rush orders delivered 24 hours after we receive them. Southwest Airways Inc. makes four daily stops in Santa Maria. Air Mail from all major cities usually arrives here the day after posting. We ship Air Mail orders the same day received.

Definite shipping instructions should accompany each order placed, and will be carefully followed by our Shipping Department. In the event instructions are not received, shipments will be forwarded over the most direct and cheapest route. Delivery to the common carrier in good condition will terminate our responsibility.

Prices quoted in this catalog apply against all 1952 crop contract purchases, and are effective immediately on spot orders. We reserve the right to change these prices at anytime without giving further notice. We are Wholesale Growers and supply the Seed Trade only.

Bags and containers will be charged at net cost. All orders for four ounces or more will be charged at the pound rate. Due to increased handling costs on small orders, a minimum charge of 25c will be made on each item billed.

We will plant sufficient land to produce the quantity of seed ordered under normal conditions; however, crop failure or any other cause beyond our control releases us from delivery and in the event of shortages, we will fill contract orders on a pro-rata basis only.

The William Macdonald Seed Company warrants to the extent of the purchase price that seeds or bulbs sold are as described on the container, within recognized tolerance. Seller gives no other or further warranty express or implied.

## **Sweet Peas**

### ***"Little Sweethearts"***

#### **OUR 25TH ANNIVERSARY SWEET PEA NOVELTIES**

Macdonald's "Little Sweethearts" are an entirely new class of Sweet Peas. Each plant makes a perfect mound of flowers just under 8 inches in height and width. Flowers are of the large ruffled spencer type and a full color range will be available. All Sweet Pea fanciers will welcome this class, with new opportunities for border, bedding, and pot plant culture. Remember to save a spot for our "Little Sweethearts" in the Novelty section of your next catalog. Color plates and complete descriptions will be available in July.

### **EARLY OR WINTER FLOWERING**

Our listing includes all of the most important Florist and Home Gardener varieties. These newer sorts feature extra strong growth, long stems, and large flowers—with many being duplexed. Winter Sweet Peas bloom at least two weeks earlier than either Cuthbertson or Summer Spencer types. This is the type for Christmas flowering—either under glass or outside in the milder climatic zones. Sweet Peas have been a Macdonald specialty for twenty-five years. During this period we have originated many current favorites. Let us send you trials for your garden or florist customers. No better Sweet Peas are available anywhere—at any price!

### **NOVELTIES FOR 1952**

#### **"SHASTA"**

Good white Sweet Peas are always in demand. In "Shasta" we offer you the best from our extensive breeding grounds. It is a pure paper white and extremely large flowered. Long stiff stems carry four florets each. "Shasta" is the most vigorous white seeded selection we have developed. A really outstanding cut flower variety.

#### **"LOS ANGELES"**

In delicate corsage making, the soft coral rose color tones of Sweet Peas blend beautifully. "Los Angeles" has deep coral salmon pink color tones. Unlike many older sorts in its color class, "Los Angeles" is a heavy producer of large ruffled flowers on long pencil stems. It is suitable for your best florist or home gardener trade.

# The William Macdonald Seed Co.

## SWEET PEA SUMMER or LATE FLOWERING SPENCER VARIETIES (HAC)

Many outstanding Sweet Pea novelties have been introduced in recent years. All of those we are listing received awards in the English and Scottish trials where this class of Sweet Pea is most popular. Also included is a complete listing of the regular standard varieties, with most of the old inferior sorts being eliminated. Please refer to page 47 for a complete color classification of Summer Flowering Sweet Peas. If we are not listing the variety you want, an equally good substitute can be found in the same color group there. Sweet Peas are a specialty item with Macdonald, over 150 acres being devoted to their culture.

### NOVELTIES FOR 1952

#### "ROB ROY"

This vigorous orange-scarlet Sweet Pea is a true self—both standard and wings having the same rich sunproof orange color tones. "Rob Roy" will average four flowers on long pencil stems. As a seedling, it received the Certificate of Merit at the Scottish National Sweet Pea Trials in 1951.

#### "SKYE"

Here is an outstandingly new large rich rosy-lavender novelty. "Skye" combines grace and vigor, producing immense well spaced flowers four to a stem. Its color tones blend to a pleasing lilac hue. "Skye" received a Certificate of Merit at the 1951 Scottish National Sweet Pea Trials.

## FIFTEEN BEST SUMMER FLOWERING SWEET PEAS

These include the best varieties in each color class. Many are quite similar in color to older sorts still being listed, but greatly improve them in vigor, stem length, size and form of flower. If you have limited catalog space and want to offer the best, these are the varieties to list.

**Avon**, clean mid blue  
**Bonny Briar**, rose pink  
**Capri**, light blue  
**Flagship**, deep blue  
**Flora**, deep lavender  
**Golden Dragon**, orange  
**Monty**, rich pink  
**Loch Lomond**, mahogany

**Mrs. Robert Bolton**, pink  
**Patricia Unwin**,  
    golden salmon  
**Piper**, rose cerise  
**Red Rover**, deep crimson  
**Snow White**, white  
**Sweet Afton**, silver pink  
**Welcome**, scarlet

## Stock

### STOCK GIANTS OF CALIFORNIA (HA 36 in.)

For the commercial cut flower grower, Macdonald's Giants of California varieties are the best Stocks available. This superb branching type produces immense spikes of two inch florets, and averages 70 per cent of doubles. One mammoth spike per plant can be produced, when transplanted four to six inches apart in beds.

# Color Classification

In addition to our regular four acre Sweet Pea Trial Ground, we recently conducted a series of color tests on every Sweet Pea variety that is offered for sale. An especially outstanding variety in each color group is indicated by two stars (★★). Those with one star (★) are highly recommended and will give fine results. All recommended varieties are vigorous growers, and will produce immense flowers on long stems.
